

Year 7 Curriculum Overview: Design & Technology; Textiles

- OPT OF THE PARTY				·
	Topics/ content outline:	Powerful Knowledge (key concepts, skills)	What will you be assessed on?	How can you help at home?
Autumn Term	Graffiti Pencil case 1. Health and Safety in Textile 2. Analysis of a Design Brief 3. Theme research including an image board. 3. Client profile 4. Initial ideas for a block/stamp 5. Development of ideas 6. Repeat design using sketchbook 7. Trailing stamp on ongoing evaluation 8. Printing repeat design 9. Laminating fabrics	 Textiles roomhazards and risks Working to a Design Brief Break down a context using a mind map Fibre characteristics Fabric finishes Drawing skills CAD repeat pattern Specific Keywords; Design Brief, Task Analysis, Client, Annotation, laminating, fusing 	Low stake Tests Design and developed ideas Teacher Assessment Manufacturing Stamp Peer Assessment Printing Self-Assessment	Resources for the Graffiti Pencil Case project are stored in Showbie. Encourage sketching practise. Encourage revision for the LST's. Pupils to develop their revision skills to suit their learning style.
Spring Term (Rotate at February half term)	10. Inserting a zip 11. Constructing the pencil case 12. Evaluation and final assessment 1. Health and Safety in Textile 2. Analysis of context 3. Theme research including an image board. 3. Client profile 4. Initial ideas for a block/stamp 5. Development of ideas	Threading a sewing machine independently Working with fabric right side to right side Specific Keywords; thread guide, balancing wheel, spool, tension, Ev aluation As above for rotation two	Final Project Teacher Assessment End of project test As above for rotation two	As above for rotation two
Summer Term	6. Repeat design using sketchbook 7. Trailing stamp on ongoing evaluation 8. Printing repeat design 9. Laminating fabrics 10. Inserting a zip 11. Constructing the pencil case 12. Evaluation and final assessment	As above for rotation two	As above for rotation two	As above for rotation two

Year 7 Curriculum Overview: Design & Technology; Design Materials

Topics/content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Gravity Racer

- 1. Workshop safety routines-hazard & risk
- 2. Safety poster
- 3. Measuring items in mm
- 4. Marking out from a working drawing
- 5. Drilling assessment
- 6. 2D drawing with equipment
- 7. Creating a working drawing
- 8. Mechanical fittings
- 9. Cutting Metal & Chassis and wheel assembly
- 10. Testing the Gravity Racer
- 11. Race Day & Evaluation

Workshop and classroom hazard / risk

- Using mm for measuring and marking out
- 2D Drawing Skills
- Safe operation of drilling machines
- Cutting and filing metal
- Mechanical fittings
- · Testing the Gravity Racer
- Celebration Race Day

Specific Keywords; Drilling machine, Soldering Irons, Bench and Vice, Length, width, thickness, Datum, Steel Rule, Engineers Square, Chassis, HIPs – High Impact Polystyrene Sheet

Low stake Tests

Drilling Self Assessment

Measuring Teacher Assessment

Final Project Peer Assessment

End of project test

Resources for the Gravity Racer project are stored in Showbie.

Encourage sketching practise.

Encourage revision for the LST's.

Pupils to develop their revision skills to suit their learning style.

Spring Term

Summer Term

Autumn Term

Flo Glow

- 1. Client Profile
- 2. Designing the silhouette- Sketching
- 3. Sketchbook (on iPad) developing the
- silhouette outline/template.
- 4. Marking out the PCB- drill strain holes
- 5. PCB Drills & Soldering introduction
- 6. Soldering and testing the circuit
- 7. Cardboard Silhouette Final Design
- 8. Polymers theory and line bending
- 9. Assembly and Testing
- 10. Evaluation

- Making the PCB
- Client Profile
- Creative Design
- Product Development
- Card Model
- Line Bend
- Assembly of Electronic Products

Specific Keywords; Strain holes, Printed Circuit Board (PCB), PCB pillar hole, components, Light emitting diode, resistor, circuit, circuit diagram

Low stake Tests

Design Peer Assessment

Soldering Self Assessment

Final Lamp Product Teacher Assessment

End of project test

Resources for the Flo Glow Lamp project are stored in Showbie.

Encouragement to notice the world of technology and new product development.

If asked, become a client for the Flo Glow Lamp project, answering questions and supporting the design process.

1. Sustair

- Game in a Box

 1. Sustainability
- Design Brief & Specification
- 3. Initial Design
- 4. Marking square lines on wood
- Gameboard CAD design
- 6. Hand sanding wood
- 7. Operating Sanding Machines
- Wood adhesive
- Marking and cutting curved shapes in wood
- 10. Using the hegner saw
- 11. Finishing wood
- 12. Injection moulding plastic

- Sustainability in Product Design
- Measuring and marking up of wood materials
- Sawing, sanding and assembling plywood
- Designing 2D graphics to promote sustainability.
- Developing CAD skills on the iPad; Sketchbook
- Using the scroll saw
- Production Lines
- Applying finishes to wood surfaces
- Injection Moulding and 3D Printing

Specific Keywords; Try Square, Tenon Saw, Bench Hook, Sanding machine, Sanding Sealer, Wood Wax, Sustainability, Reduce, Reuse, Recycle

Low stake tests

Cutting Wood Teacher Assessment

Sanding Machine Self Assessment

Final Product Peer Assessment

End of project test

Resources for the Game in a Box project are stored in Showbie.

Encourage sketch practise and play board games to help with the project context.

Additional design and technology resources can be found on the following websites; www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Year 8 Curriculum Overview: Design & Technology; Textiles

The street a street				♥ NESIEIENGE
	Topics/ content outline:	Powerful Knowledge (key concepts, skills)	What will you be assessed on?	How can you help at home?
Autumn Term	Bucket Hat 1. Working to a brief 2. Analysis of Context 3. Product Analysis 4. Fibres 5. Fabrics, focus of w eaving 6. Afercare 7. Resist method, focus of tie dye 8. Specification 9. Lay plan/pattern making 10. Manufacture of bucket hat 11. Testing 12. Evaluation	Specific Keywords; contextual, natural cellulose, warp, weft, selv edge, raw edge, fray, twill weave, resist, sizing,	Low stake Tests Design and developed ideas Teacher Assessment Manufacturing Stamp Peer Assessment Printing Self-Assessment	Resources for the bucket hat and E cuff projects are stored in Showbie. Encourage sketching practise. Encourage revision for the LST's. Pupils to develop their revision skills to suit their learning style.
Spring Term (Rotate at February half term)	E Cuff 1 Bucket Hat 1. Working to a brief 2. Analysis of Context 3. Product Analysis 4. Fibres 5. Fabrics, focus of w eaving 6. Afercare 7. Resist method, focus of tie dye 8. Specification	Specific Keywords; component, polarity, ergonomics, anthropometrics As above for rotation two		
Summer Term	9. Lay plan/pattern making 10. Manufacture of bucket hat 11. Testing 12. Evaluation E Cuff 1. 2.	As above for rotation two	As above for rotation two	As above for rotation two

Year 8 Curriculum Overview: Design & Technology; Design Materials

Topics/ content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Autumn Term

Electronic Game

- 1. Design brief and specification
- 2. Drilling PCB & Soldering
- 3. Microcontrollers theory
- 4. Testina electronic aames
- 5. Testing the game
- 6.CAD sketchbook
- 7.3D Isometric drawina
- 8. CAD Onshape
- 9. CAD Corel Draw
- 10. Assembly and circuit testing

Working with PCBs

- Soldering new components
- Microcontrollers
- **Designing Nets**
- Computer Aided Design iPad Sketchbook
- Computer Aided Design PC Corel Draw
- Making and assembling nets / packaging electronics
- Testing and evaluating game design

Specific Keywords; PCB Drill, Side Cutters, Coloured LED, Microcontroller, Chip Seat, Craft Knife, Safety Ruler, CAD (Computer Aided Design), CAM (Computer Aided Manufacture). Polarised

Low stake Tests

Logo Design Peer Assessment

Final Project Self Assessment

End of project test

Resources for the Electronic Game project are stored in Showbie.

Encourage CAD sketching on the iPad for practise.

Encourage revision for the LST's.

Pupils to develop their revision skills to suit their learning style.

Spring Term

Clock Project

- 1. Famous designers
- 2. Design Brief and specification
- 3.2D technical drawina
 - 4.3D Oblique drawina
 - 5. CAD Onshape 3D CAD
 - 6. Vacuum formina mould
 - 7. Vacuum formina and workina with HIPs
 - 8. Clock Product Assembly
 - 9. Testing and Evaluation

Create a unique Design Brief and Specification

- 2D and 3D technical sketching
- 2D and 3D technical CAD: Onshape 3D files
- Develop with client feedback
- About Thermoplastics /Thermosetting plastics
- Making the mould for forming
- Vacuum forming and finishing High Impact Polystrene Sheet

Specific Keywords; Datum, Datum point, centre line, construction lines, reference points, thermoplastic. thermosetting, High impact Polystyrene sheet, Vacuum forming

Low stake Tests

Design Ideas Peer Assessment

Final Project Teacher Assessment

End of project test

Resources for the Clock project are stored in Showbie.

Encourage technical drawing and CAD sketching on the iPad.

Encourage revision for the LST's.

Pupils to develop their revision skills to suit their learning style.

Summer Term

Engineering Challenges

- 1. Flextanale
- Paper/card engineering design
- 2. Architectual sketchina
- 2D / 3D thinking
- 3. Faraday Challenge
- 4. Foodtruck designs

- Working to scale
- 2D to 3D thinking
- Innovation thinking
- Folding and cutting complex shapes
- Architecture Industry
- Problem solving
- Working in teams
- Sign writing
- Vinyl Cutter

Specific Keywords; Commercial scale, innovation, creative risk, evaluation, STEM (Science, Technology, Maths and engineering), Orthographic Projection

Reflection and Review - Peer Assessment

Self-Assessment of creative tasks

End of project feedback and personal target setting

Resources for the Engineering are stored in Showbie.

Visit these websites: The Institution of Engineering and Technology, STEM.org.uk, Dysoninstitute.com

Pupils can share and repeat these challenges at home and have another go to perfect their creative thinking.

Year 9 Curriculum Overview: Design & Technology; Textiles

Topics/content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Autumn Term

Cultural Bag

- 1. Writing a design brief
- 2.Composition theory
- 3. Colour theory
- 4.CAD
- 5.CAM
- 6. Production Plan
- 7. Resist Dye Techniques
- 8. Fibres and Fabric

Coursework research techniques: Identifying the customer needs and wants.

Design skills: Demonstrate scale depth and colour.

- Design skills: Demonstrate scale, depth and colour,
 Developing CAD: repeat patterns and manipulating colour palettes.
- CAM: investigating printing techniques
- Resist dye techniques: sampling traditional methods to embellish fabric
- **Research skills:** investigation of others and fabrics and fibres analysis.

Specific Key words: Batik, Tie Dye, Transfer, Heat press, Colour palette, stencil, cotton, combed, carded. Composition.

Low stake Tests

Teacher Assessment of Designs

Peer Assessment of sampling techniques

Self-Assessment of composition

Resources for the bag are stored in showbie / Yr 9 / Textiles / Cultural bag.

Encourage sketching and composition work. Encourage revision for LST ,pupils can access showbie for this and try different techniques?

Encourage watching the Great British sewing Bee

Support pupils obtaining the fabric and trims to make the bag from.

Spring Term

Cultural Bag

- 1..Creating a pattern
- 2..Fabric marking
- 3. Fabric panel cutting 4M anufacturing
- 5.Lining
- 6.Evaluation

Pattern Making: measurement, planning, markings, lay plans

- Manufacturing: 2D shapes into 3D forms. Fabric placement and cutting, production plan, using machine and hand equipment skills.
- Testing and analysis: Evaluating the bag against anthropometrics and aesthetics.

Specific Key words: grain, pattern markings, selvedge, seam allow ance, lining, bagging out, cellulose, regenerated, natural, synthetic, felting, woven, knitted.

Low stake Tests

Self-Assessment of completed product.

Resources for the bag are stored in showbie / Yr 9 / Textiles / Cultural bag.

Encourage completion of embellishment at home.

Encourage revision for LST ,pupils can access showbie for this and try different techniques?

Encourage watching the Great British sewing Bee

Summer Term

Shorts

- 1.Research of design technique and sustainability in clothing.
- 2. Sampling techniques
- 3. Analysis of existing products and initial design ideas
- 4.M anufacturing specification 5.Developing and fitting a prototype
- M anufacturing and manipulation
 of fabric
- 7.Evaluation analysis.

- Research skills: traditional prints, Market research and sustainability safety and moral standards in the industry.
- Sketching techniques: CAD fashion illustration and bespoke design ideas.
- Skills: Pattern block, sampling machine techniques and analysing for end use, creating pockets and styling details.
- Modelling: creating a toile prototype and manipulating to consider measurements and aesthetics and evaluating for improvement.
- Specification: detailing fabric components.

Specific Key words: notch, grain line, dart, ruffle, toile, applique, knife pleat.

Low stake tests

Teacher Assessment of image board, driving test and samples.

Self-Assessment of initial design ideas, shop report and analysis.

Resources for the short are stored in showbie / Yr 9 / Textiles / short

Encourage sustainability research.

Encourage watching the Great British Sewing Bee.

Provide no longer needed garments and fabric items to be brought into school to reuse for making the shorts.

Year 9 Curriculum Overview: Design & Technology; Resistant Materials

Topics/ content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Autumn Term

Balance Lamp:

- . Marking-up
- Timber processing through subtraction
- 3. Aluminium processing
- 4. Electronics
- Assembly skills using JIGs and standard components
- 6. 2D and 3D hand sketchina

- Timber manufacturing knowledge; Marking up, sawing by machine and hand, sanding by machine and hand, drilling and assembly by machine and hand
- Metalwork manufacturing techniques; Marking up, cutting and filing by machine and hand, drilling by machine, assembly processes
- Sketching techniques in 2D & 3D oblique and perspective

Specific Keywords; (all marking up equipment) engineers blue, scribe, scratch, cross and draw filing, metalwork vice, buffing, JIGS, personalised design.

Low Stake Test (LST) on several areas

Teacher Assessment of marking up and sawing

Self-Assessment of the lamp assembly

Resources for the balance lamp project are stored in Showbie / 9?/Dm1 DT Resistant Materials / Balance lamp

Encourage sketching practise
Encourage revision for the LST's.
Pupils to develop their revision skills to suit their
learning style.

If asked, become a client for the Balance Lamp project, answering questions and supporting the design process.

Spring Term

- 7. Location research and redesign.
- 8. CAD using On Shape
- Bespoke design manufacturer
- 10. Finishing Techniques

Passive Amplifier;

- . Context analysis and situation.
- 2. Client and location research
- 3. Brief and Specification

- Creativity through bespoke design and sketching skills
- Research skills –investigation of others
- Developing CAD through OnShape
- Using CADCAM for laser cutting
- GCSE coursework techniques to investigate the context of the 'passive amplifier'
- Coursework research technique to develop and appropriate design for a specific client.

Keywords; Finishing, Context analysis, Mind map, Client Profile, Brief & Specification

Low Stake Test (LST) on several areas

Peer assessment of the final product. Core knowledge end of topic test.

Teacher assessment of the Brief & Specification Low Stake Test (LST) on several areas

Resources for the Passive Amp project are stored in Showbie / 9?/Dm1 DT Resistant Materials / Passive Amplifier

Pupils will be introduced to using a design portfolio in MS Teams to evidence their work.

If asked, become a client for the Passive Amplifier project, answering questions and supporting the design process.

Support revision for the end of topic test.

Summer Term

- Initial Ideas using 2D and 3D techniques.
- 5. Work of others inspirational research to develop idea
- 6. Paper and card modelling
- 7. Dev eloped layered design
- 8. CAD Technical drawing
- 9. Manufacture of the bespoke passive amplifier
- 10. Evaluation of the product

- Creativity through design, using sketching techniques and different research to develop individual ideas.
- Modelling Skills developed in paper and card
- Testing and analysis of ideas through iterative design to prepare for manufacture.
- CAD drawing skills in OnShape to create an accurate technical drawing of each part.
- Manufacture using machines and hand tools knowledge and skills developed throughout year 7-9.

Keywords; Design Fixation, Initial Ideas, Work of Others, Inspiration, design development, Modelling, Analysis & Evaluation

Low Stake Test (LST) on several areas

Self assessment of the technical drawing

Peer assessment of the final product

Additional design and technology resources can be found on the following websites;

www.technologystudent.com

https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Year 9 Curriculum Overview: Design & Technology; Electronics

Topics/content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Autumn Term

Project 1: Music Box

- . Component Knowledge
- 2. Making the PCB & soldering
- 3. Coding using Blockly
- 4. Taskanalysis
- 5. Client Profile
- 6. Design Situation & Brief

- Printed Circuit Board (PCB) manufacturing skills; small scale drilling, component recognition, soldering and testing.
- Coding Skills; using Blockly software and completing a series of challenges, complete tasks in the Picaxe tune wizard
- Research and investigation skills; task analysis, client profiling
- Create a design situation and design brief

Specific Keywords; Input, process, output, Microcontroller, chipseat, resistor, push to make switch, piezo buzzer, download socket., track side

LST's throughout

Exam style questions

Self-assessment; Soldering

Teacher assessment; Soldering

Resources for the Music Box project are stored in Showbie / 9?/De1 DT Electronics / 01 Music Box

Encourage sketching practise
Encourage revision for the LST's.
Pupils to develop their revision skills to suit their
learning style.

Support with pupils accessing https://blockly.games/ for additional coding practice.

Support revision for the end of topic test.

Spring Term

- 7. CAD design
- 8. CAM outputs

Project 2: Torch

- 1. Populate the PCB
- 2. Task Analysis
- 3. Product Analysis
- 4. Design Possibilities

- CAD Develop CoralDraw skills to create "D technical drawings
- CAM output the casing designs to the laser cutter, developing CAM programming skills.
- Portfolio through MSTeams; upskilling pupils Microsoft skills to evidence their design project.
- Task and Product Analysis; building research, analysis and evaluation skills.
- Design Ideas; explored through sketching

Self-assessment of end product.

End of Topic Test

Torch Project: LST's throughout

Teacher Assessment on design possibilities

Resources for the Passive Amp project are stored in Showbie / 9?/De1 DT Electronics / Torch

Pupils will be introduced to using a design portfolio in MS Teams to evidence their work.

Answer the design possibilities feedback survey.

Support revision for the end of topic test.

Summer Term

- Paper Modelling
- 5. Final Prototype Manufacture
- S. Assembly
- 7. Evaluation

- Paper Modelling; creating different ideas in 3D forms to test the design ideas.
- Manufacturing; using a broad range of processes to test the best for the pupils individual design; scroll saw, injection moulding, reflector with foil, net assembly, card mould modelling, vacuum forming.
- Diary of Manufacture; evidence ongoing tasks, Health & Safety and Quality Control.
- CAD; virtual final design output

Specific Keyword; product analysis, prototype, diary of manufacture, quality control, portfolio

LST's throughout

Self Assessment of the final prototype

Final assessment – end of topic test

Additional design and technology resources can be found on the following websites:

www.technologystudent.com

https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Work of Others

Mockexam

Year 10 Curriculum Overview: Design & Technology; Textiles

Additional design and technology resources

can be found on the following websites:

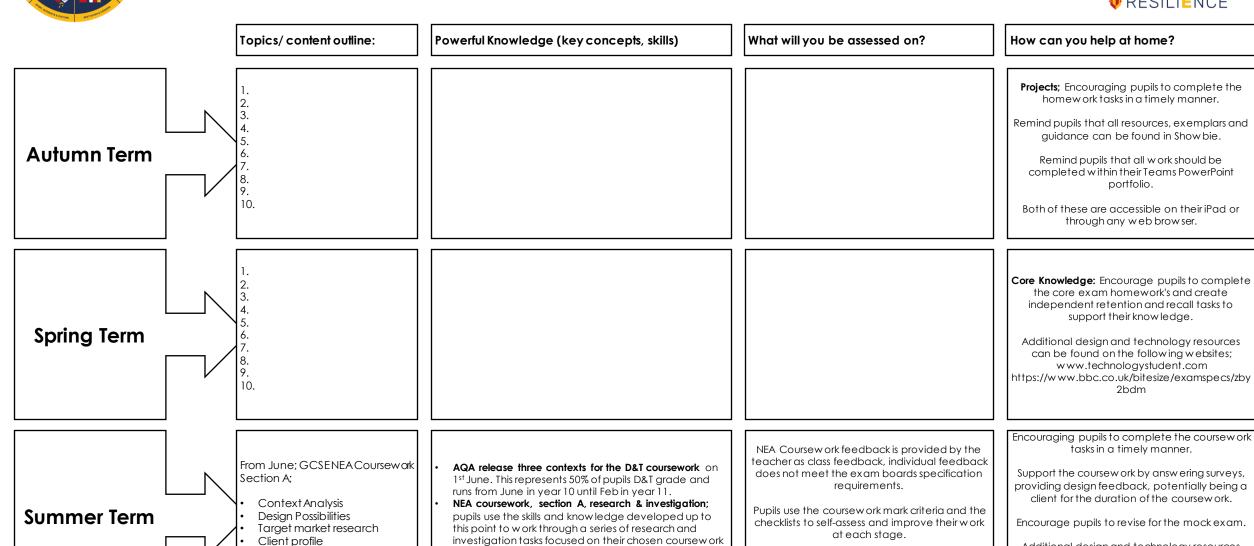

www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby

2bdm

Mock exam is a shortened exam paper

designed to test the most common question

types.

Year 10 mock exam; in June or July

Year 10 Curriculum Overview: Design & Technology; Resistant Materials

Topics/content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Project 1 – Slider Box;

- 1. CAD On Shape skills
- CAD manufacturing specification (D of NEA)
- 3. Manufacturing of slider box
- 4. Diary of Making
- 5. 2D and 3D sketching skills

Mini Project 2 – Polymers;

1. Polymer Processes

Core Knowledge – follow textbook CAD OnShape skills to create a working design, output technical drawings to use to manufacture the slider hax

- Manufacturing of the slider box using sawing, sanding, drilling, quality control, assembly, finishing techniques.
- **Evidence** of manufacturing skills through the diary of making
- 2D and 3D sketching skills threaded throughout.
- Polymer processing using the vacuum former, line bender and oven forming with moulds.
- Core D&T Knowledge taught through a series of mini knowledge lessons building for the exam.

Specific new keywords; Mitre saw, router, chamfer, housing joint, lap joint, oven forming

Teacher assessment of OnShape; first part, completed assembly & rendering

Self-assessment of practical skills

Peer assessment of sketching skills and Diary of making

Core knowledge – practise exam questions, Low Stake Tests and a mini exam.

Projects; Encouraging pupils to complete the homework tasks in a timely manner.

Remind pupils that all resources, exemplars and guidance can be found in Showbie.

Remind pupils that all work should be completed within their Teams PowerPoint portfolio.

Both of these are accessible on their iPad or through any web browser.

Spring Term

Autumn Term

Project 3 – Tiny Spaces, practise

- . Context & design possibilities
- 2. Client profile
- 3. Brief & specification
- 4. Idea generation
- 5. Work of Others
- 6. Product Analysis
- 7. Design dev elopment
- Tenth scale modelling
- P. Evaluation

Core Knowledge – follow textbook NEA coursework, section A, research & investigation Pupils write their individual design brief and specification based on their research and investigation. This informs their design journey.

- Pupils explore design ideas using the iterative process of design, test, analyse, redesign, continue.
- Pupils develop their clients chosen design, through paper and card modelling with some plywood and polymer elements, using the skills developed in year 7-10
- Core D&T Knowledge taught through a series of mini knowledge lessons building for the exam.

Specific new keywords; Analysis, evaluate, iterative, perspective, scale, ergonomics, anthropometrics

Teacher assessments of design possibilities, w ork of others & manufacturing

Self-assessment of client profile, modelling and evaluation

Peer assessment of brief & specification, modelling.

Core knowledge – practise exam questions, Low Stake Tests and a mini exam. Core Knowledge: Encourage pupils to complete the core exam homework's and create independent retention and recall tasks to support their knowledge.

Additional design and technology resources can be found on the following websites; www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Summer Term

From June; GCSENEA Coursewark Section A;

- Context Analysis
- Design Possibilities
- Target market research
- Client profile
- Work of Others
- Mockexam

- Manufacturing; through model making and tenth scale prototypes.
- Evaluation skills.
- AQA release three contexts for the D&T coursework on 1st June. This represents 50% of pupils D&T grade and runs from June in year 10 until Feb in year 11.
- NEA coursework, section A, research & investigation; pupils use the skills and knowledge developed up to this point to work through a series of research and investigation tasks focused on their chosen coursework context
- Year 10 mock exam: in June or July

NEA Coursew ork feedback is provided by the teacher as class feedback, individual feedback does not meet the exam boards specification requirements.

Pupils use the coursework mark criteria and the checklists to self-assess and improve their work at each stage.

Mock exam is a shortened exam paper designed to test the most common question types.

NEZ Coursework: Encouraging pupils to complete the coursework tasks in a timely manner.

Support the coursew ork by answering surveys, providing design feedback, potentially being a client for the duration of the coursework.

Encourage pupils to revise for the mock exam.

Year 10 Curriculum Overview: Design & Technology; Electronics

Topics/ content outline:

Powerful Knowledge (key concepts, skills)

What will you be assessed on?

How can you help at home?

Autumn Term

Modular Circuit Project

- Soldering the process board
- Breadboarding
- Coding
- Coding Challenge

Core Knowledge – follow textbook

- Multifunctional modular circuit manufacture. Process evidence
- **Breadboarding** skills to develop bespoke circuits.
- Printed Circuit Board (PCB) manufacturing skills;
- Coding Skill and challenges; using Blockly software and completing a series of challenges, complete tasks in the Picaxe tune wizard

Specific Keywords; Input, process, output, 7 segment display, Microcontroller, chipseat, resistor, push to make switch, piezo buzzer, download socket. Single and multicore wire, photo transitor, track side

Low Stake Tests throughout the curriculum

Teacher, self and peers assessments threaded throughout the project.

Core knowledge - practise exam questions, Low Stake Tests and a mini exam.

Projects; Encouraging pupils to complete the homework tasks in a timely manner.

Remind pupils that all resources, exemplars and guidance can be found in Show bie.

Remind pupils that all work should be completed within their Teams PowerPoint portfolio.

Both of these are accessible on their iPad or through any web browser.

Spring Term

Modular Circuit Proiect

- Client research
- Makina a PCB
- Makina the Casina
- Testing & Ev aluation

Core Knowledge - follow textbook

- **Research and investigation skills**; task analysis, a target market survey and client profile
- **Create** design situation and design brief.
- Initial ideas of the bespoke circuit using circuit wizard
- Complete a product analysis to expand design ideas.
- Manufacture your bespoke PCB using circuit wizard, printing and acid etching
- Manufacture of the casing using timber and polymer processes.
- Evaluation against the brief and specification.

Specific keywords; product analysis, situations, circuit wizard, acid etching,

Low Stake Tests throughout the curriculum

Teacher, self and peers assessments threaded throughout the project.

Core knowledge - practise exam questions, Low Stake Tests and a mini exam.

Core Knowledge: Encourage pupils to complete the core exam homework's and create independent retention and recall tasks to support their knowledge.

Additional design and technology resources can be found on the following websites: www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Summer Term

From June: GCSENEA Coursework Section A:

- Context Analysis
- Design Possibilities
- Taraet market research
- Client profile
- Work of Others
- Mockexam

- AQA release three contexts for the D&T coursework on 1st June. This represents 50% of pupils D&T grade and runs from June in year 10 until Feb in year 11.
- NEA coursework, section A, research & investigation; pupils use the skills and knowledge developed up to this point to work through a series of research and investigation tasks focused on their chosen coursework context.
- Year 10 mock exam; in June or July

NEA Coursework feedback is provided by the teacher as class feedback, individual feedback does not meet the exam boards specification requirements.

Pupils use the coursework mark criteria and the checklists to self-assess and improve their work at each stage.

Mock exam is a shortened exam paper designed to test the most

Encouraging pupils to complete the coursework tasks in a timely manner.

Support the coursework by answering surveys, providing design feedback, potentially being a client for the duration of the coursework.

Encourage pupils to revise for the mock exam.

Additional design and technology resources can be found on the following websites; www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm

Autumn Term

Spring Term

Year 11 Curriculum Overview: Design & Technology; All material specialisms

Topics/ content outline:

Powerful Knowledge (key concepts, skills)

NEA Coursework feedback is provided by the teacher as class feedback, individual feedback W위약wiff your 남는으로 살아 얼마 하다. requirements.

How can you help at home?

B - Brief & Specification

- C Generating Design Ideas;
- 1. Idea Sketching
- 2. Initial development
- 3. Design experimentation
- 4. Use of design strategies
- D Dev eloping Design Ideas;
- 1. Dev elopment of design
- 2. Modelling
- 3. Material testing
- 4. Manufacturing specification

- Pupils write their individual design brief and specification based on their research and investigation. This informs their design journey.
- Pupils explore design ideas using the iterative process of design, test, analyse, redesign, continue.
- Pupils develop their clients chosen design, preparing it for manufacture.
- Core exam knowledge covered in recall tasks throughout the NEA coursework.
- Core exam knowledge is tested in a full D&T mock exam.

Pupils use the coursework mark criteria and the checklists to self-assess and improve their work at each stage.

Mock exam is a shortened exam paper designed to test their existing knowledge and question answering techniques. Encouraging pupils to complete the coursework tasks in a timely manner.

Remind pupils that all resources, examplars and guidance can be found in Showbie.

Remind pupils that all work should be completed within their Teams PowerPoint portfolio in their private channel.

Both outseverlare successible ontinhed litelial or assessment ugan cher land welche class feedback.

Pupils will complete small amounts of core recall tasks during the NEA.

Once revising, pupils will practise exam questions and teachers will provide feedback on techniques and knowledge, as required,

Encouraging pupils to complete the coursework tasks in a timely manner.

Remind pupils that all resources, examplars and guidance can be found in Showbie.

Remind pupils that all work should be completed within their Teams PowerPoint portfolio in their private channel.

Both of these are accessible on their iPad or through any web browser.

Support pupils with the final deadline, some may need to attend extra sessions after school to complete tasks.

Please support pupils to create a revision plan for all subject areas, including D&T.

Those that also attend Engineering will have some cross-over knowledge that will support both subjects.

E- Realising Desing Ideas

- 1. Manufacturing the design prototype
- 2. Evidence of manufacture

F – Analysing & Ev aluating

- 1. Evidence of design iterations
- Testing of Prototype
- 3. Ongoing analysis & evaluation

D&T Exam Revision

- Pupils manufacture their product from their chosen materials, using the skills and knowledge built over the past five years.
- The project concludes with overall analysis and evaluation of the completed prototype, with feedback from the client and future modifications.
- Core exam revision within lesson time and for homework, focusing on recall of the topics and knowledge developed throughout year 10 & 11, practise on exam question techniques and recall techniques.

Summer Term

D&T Exam Revision up until pupils leave for exams.

 Core exam revision within lesson time and for homework, focusing on recall of the topics and knowledge developed throughout year 10 & 11, practise on exam question techniques and recall techniques. Pupils will continue to work on retaining and recalling D&T knowledge and use this to practise exam questions and teachers will provide feedback on techniques and knowledge, as required,

Support pupils with their exam preparation and revision.

Additional design and technology resources can be found on the following websites; www.technologystudent.com https://www.bbc.co.uk/bitesize/examspecs/zby 2bdm
